- File https-http.png added

Also affects me. See attachment for probable cause.

#2 - 11/05/2014 02:01 PM - Sören Eberhardt-Biermann

In the file /include/init.php, lines 71 ..
replace

```
if ( $_SERVER['SERVER_PORT'] == 443 ) {  
    $GLOBALS["script_name"] = "https://" . $GLOBALS['__SERVER']['HTTP_HOST'] . $GLOBALS['__SERVER']['PHP_SELF']  
};  
    $GLOBALS['home_url'] = "https://" . $GLOBALS['__SERVER']['HTTP_HOST'] . dirname($GLOBALS['__SERVER']['PHP_SELF']);  
} else {  
    $GLOBALS["script_name"] = "http://" . $GLOBALS['__SERVER']['HTTP_HOST'] . $GLOBALS['__SERVER']['PHP_SELF']  
};  
    $GLOBALS['home_url'] = "http://" . $GLOBALS['__SERVER']['HTTP_HOST'] . dirname($GLOBALS['__SERVER']['PHP_SELF']);  
}
```

with

```
$GLOBALS["script_name"] = "/" . $GLOBALS['__SERVER']['HTTP_HOST'] . $GLOBALS['__SERVER']['PHP_SELF'];  
$GLOBALS['home_url'] = "/" . $GLOBALS['__SERVER']['HTTP_HOST'] . dirname($GLOBALS['__SERVER']['PHP_SELF'])  
;
```

that should fix it?
