

eXtplorer - PHP-based File Manager - Feature #19

extplorer cannot handle a lot of user accounts

Description			
There is no scroll bar if you have a lot of users - so you cannot manage them.

I have a solution: find this file scripts\extjs3\resources\css\ext-all.css and on line 6694 add this to .x-panel-mc

```
min-height: 100px;  
overflow: scroll;
```

this will create a scroll and your box will be with 100px because this changes the login box also.
