

eXtplorer - PHP-based File Manager - Fehler #46

extractor create corrupted extraction

10/22/2011 04:55 AM - Troy Hall

Status:	Neu	
Priority:	Sofort	
Assignee:		
Category:	Bug	
Target version:		
eXtplorer Version:		Joomla! Version:
Description if you take a joomla zip file and extract it with extplorer the extracted files cannot be installed. However, if instead you extract that same file with osefileman they can be. I was able to replicate this on at least 10 quickstart bundles.		

History

#1 - 10/22/2011 04:55 AM - Troy Hall

this is in 1.7.2 if it matters

#2 - 11/01/2011 02:49 AM - Troy Hall

wondering if we're going to get this fixed anytime soon?
